***Reasons for Allowance***

1. The cancellation of claims 1-25 in Paper No. 07072003 is acknowledged.
2. The following is an examiner's statement of reasons for allowance:

The prior art cited on the attached form PTO-892 is the most relevant prior art known. However, Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious a system including a control unit that receives I/O requests from multiple host processors from same logical storage area, and the I/O requests are handled in parallel if the control unit determines that there is no extent conflict between the I/O requests or the I/O requests are not handled in parallel if the control unit determines that there is an extent conflict between the I/O requests. The cited references at most, contain only one or the other, but not all the limitations claimed. There would also be no reason to make any of the possible combinations.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any response to this action should be mailed to:
